

Biology and Life Sciences Teacher

Cranbrook Kingswood Upper School is seeking an enthusiastic, creative, and innovative Biology teacher. The successful candidate is intrinsically motivated to see the familiar in new ways and has a passion for work in the classroom and the laboratory – experience teaching AP Biology is significantly beneficial.

Collaboration within a dynamic Science department, creation of powerful learning experiences for a globally diverse student body, commitment to making a positive impact on the lives of adolescents through interpersonal relationships, setting a positive tone, and treating students as individuals within the context of a broader community, are all critical components of this position.

This full-time member of the Upper School faculty teaches four sections of Biology (all levels) and contributes to a large extracurricular program such as Athletics, Debate, or Robotics. Additionally, it is understood that the successful candidate has a demonstrated commitment to work in an extraordinarily diverse and inclusive community, and to participate in an enriching residential program.

Cranbrook is a PK-12 school with a vibrant boarding component in grades 9-12, allowing the school to provide teachers with the opportunity to live and work on our architecturally famous 319-acre campus. Often living and working in our residence halls, faculty engage students and support their development as members of a shared community. Eagerness to live among students, and to engage them in the evenings and on the weekends as a part of an exciting residential program, is considered significantly beneficial.

The campus also hosts a Graduate Academy of Art, a Science Museum, and an Art Museum, which together comprise the Cranbrook Educational Community. The art and architecture that shape the campus are designed to complement the surrounding natural environment, making for a truly stunning campus. The campus is located about 10 miles north of Detroit. For more, please visit our website: www.cranbrook.edu, and take an aerial tour of the campus.

This position requires a Bachelor's Degree in Biology or a related field, with a Master's Degree preferred. Enthusiasm for teaching and working with adolescents and excellent communication skills are expected for all teachers. Interested candidates should submit a curriculum vitae or résumé, a completed Faculty Application, copies of undergraduate and graduate transcripts, statement of educational philosophy relative to this position, and two or three letters of recommendation with contact information to Cranbrook HR – Upper School Biology Teacher, P.O. Box 801, Bloomfield Hills, MI 48303, or fax (248) 645-3014, or email humanresources@cranbrook.edu.
